

Ivory-coloured clamshells with a nacreous gloss grant these products their special appeal. In combination with ice and the Zieher rechargeable LED-lights the double-walled bowls produced in mosaic-look create fascinating effects, thus becoming the eye-catcher at the buffet. The double-walled construction provides insulating characteristics. This prevents the formation of condensate on the outside of the bowls to the greatest possible extent. More items of the series are available on pages 154 and 155.

New!
